

AIRBLASTER®

PRODUCT SIZING CHART

AIRBLASTER RECOMMENDED GARMENT SIZING FOR ALL NINJA SUITS, JACKETS, PANTS & STREETWEAR

Size chart dimensions below are based on recommended "human measurements", not garment measurements. Garment size at top (S, M, L, etc) corresponds to a range of human measurements that we recommend for optimal fit of each size. Body sizes and shapes vary, as do personal preference. Please scroll down for "how to measure" guidelines.

HOW WE MEASURE

Waist

What waist size pant do you normally wear? Measure around your natural waistline, where you like your pants to sit... Now subtract full inch to account for vanity sizing. Really. This is your pant waist size. Remember that all Airblaster pants have adjustment tabs built in to make the waist smaller and customize your fit.

Chest / Bust

Measure around the widest part of your chest or bust. Chest size recommendations on the sizing guide include ease in the chest of the garment to assure you have room to move and add layers. Refer to fit guide icons on each product page to choose the appropriate jacket to match your preferred style and fit.

Inseam

What is the inseam measurement of your favorite pants? Measure from the crotch of your pants (point where the front and back rise meet) down to the point on your ankle where you like your snowboard pants to fall. Inseam length recommendations on the Sizing Guide include ease in the length to make sure you have room to move and bend your knees. Refer to fit guide icons to choose the appropriate pant to match your preferred style and fit.
